产 品 承 认 书

Certificate of production

1. 外观及尺寸: Appearance and size

塑胶件表面应无明显疤痕、杂色、开裂、毛刺、飞边、缺料及影响使用的变形；金属件表面应光洁、无锈蚀、氧化、脱皮、发黑及明显的机械损伤等缺陷。  
The surface of plastic parts shall be free of obvious scars, mottled, cracked, burr, flash, lack of material and deformation affecting the use; the surface of metal parts shall be smooth and clean No rust, oxidation, peeling, blackening and obvious mechanical damage  
参照工程图      Reference engineering drawing

2. 标准额定值: Standard rating

| 项目 project                         | 规格 specifications                         |
|------------------------------------|-------------------------------------------|
| 额定电压 The rated voltage             | 125V                                      |
| 额定电流 Rated current                 | 1. 0A                                     |
| 使用温度范围 Operating temperature range | -25℃~+85℃                                 |
| 使用湿度范围 Operating humidity range    | 相对湿度 90%以下 Relative humidity is below 90% |

3. 环保: Environmental protection

本产品符合 ROHS 环保要求  
RoHS compliant and customer' s environment protection requestcompliant

4. 材料: Material

基座 Wafer: LCP  
插针 Pin: 黄铜  
焊片 Solder tab: 黄铜

5. 包装 : Packaging

产品内包装为连带, 外包装为纸箱产品在箱内, 不晃动 Unless otherwise specified, the series connectors are packed with Taping specifications

6. 运输: Transportation

允许用任何方式运输, 但需避免雨雪淋和阳光照射, 不能有碰撞和挤压等机械损伤, 运输环境温度为-20℃~+50℃ Any vehicle can be adopted for the transportation, but inoistrre-proof and no mechanical damage, transport temperature to -20℃~+50℃

7. 贮存: Store up

包装完毕的连接器的应在环境温度为-20℃~+50℃, 相对湿度不大于 80%, 周围空气中没有酸性、碱性及其它腐蚀性气体的仓库中贮存。  
Temperature: -20℃~+50℃  
Relative Humidity: <80%  
No to storage in corrosiveenvironments

|                                        |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                  |

技术要求

1: 外观要求

- 1-1. 插针表面光洁、无损伤、锈蚀等缺陷。
- 1-2. 基座表面无脏污、飞边、排气不良等缺陷。

2: 电气性能:

- 2-1. 额定电流: 1.0A
- 2-2. 额定电压: 125V
- 2-3. 耐电压: 250V
- 2-4. 接触电阻:  $\leq 20m\Omega$
- 2-5. 绝缘电阻:  $\geq 100m\Omega$
- 3. 工作温度:  $-25^{\circ}C \sim +85^{\circ}C$
